How Do I Access My Partner Scorecard?

Article Details   000016791

The AWS Partner Scorecard is available to your company's Alliance Lead and Alliance Team members. Any users who are registered as standard Partner Users will not be able to access the AWS Partner Scorecard.

If you are the Alliance Lead or an Alliance Team user, you may access your company's Partner Scorecard by following the steps below:

1. Log in to AWS Partner Central (https://partnercentral.awspartner.com/home)
2. In the Homepage, scroll down to the AWS Partner Paths section. Here, you can select the Scorecard for the individual Partner path(s), or you can click "View Scorecard"
